Dear Etienne Swarts

**Re: GCN mitigation areas adjacent to Sessick Way, Wrexham.**

Dear Etienne,

Thank you for contacting us regarding the GCN mitigation scheme at the land adjacent to Sessick Way.

We are very interested in working with both you and the landowner in taking on the core management and future monitoring of the two mitigation areas proposed for this development.

We own, manage and monitor a number of GCN mitigation sites within North East Wales and this would be a great addition to our growing portfolio of sites and partnerships.

Kind regards,

Mandy Cartwright  
North Wales Officer  
Amphibian and Reptile conservation Trust
